

# LFT1500

## High Accuracy with Lasting Reliability

Approved Weighing to Class III for Waste Vehicles

## Approved Chassis Weighing System for Charging and Price Management by Weight

The LFT1500 approved body weighing system is a high-accuracy, legal-for-trade system for invoicing at the point of collection. LFT1500 comprises four or six approved load cells (mounted between the chassis and body), an inclinometer, and the 1800 in-cab indicator.

- Approved for trade invoicing from the cab
- OIML R76 approved to Class III
- Accurate to 20 kg in 15,000 kg
- Ideal for waste and recycling vehicles
- Tilt compensation of up to 10 degrees
- Comprises 4 or 6 load cells
- 22,000 kg capacity each load cell

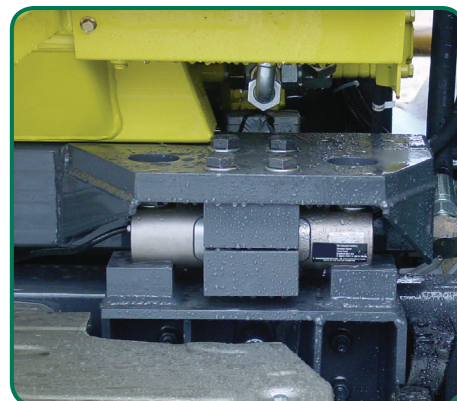

The unique 'flexible' mounting bracket allows the chassis to 'twist' enabling greater accuracies; together with the chassis inclinometer, accuracies of 20 kg are standard. The 1800 weighing instrument displays large easy-to-read characters and features options such as Bluetooth.
